

MTH208: Quiz 4

Instructions

- Download `q4_template.R` and rename it `q4_<ROLL>.R` (e.g., `q4_123456.R`).
 - Copy and paste all relevant code in the renamed `q4_template.R` file provided. You MUST only submit relevant code. In the event of any error, you will receive 0 marks.
 - Your script must run from a fresh R session without errors.
 - Deadline: 3:00 pm. Submit `q4_<ROLL>.R` on helloIITK only.
-

Load the `csv` file provided.

Your goal is to submit code that recreates this plot *exactly*. Note that box axes are in Log base 10 scale.

Your code must look something like this

```
...  
  
final_plot <- ggplot ....  
  
final_plot # this MUST be the last line
```
