

MTH209: Midsem Summary

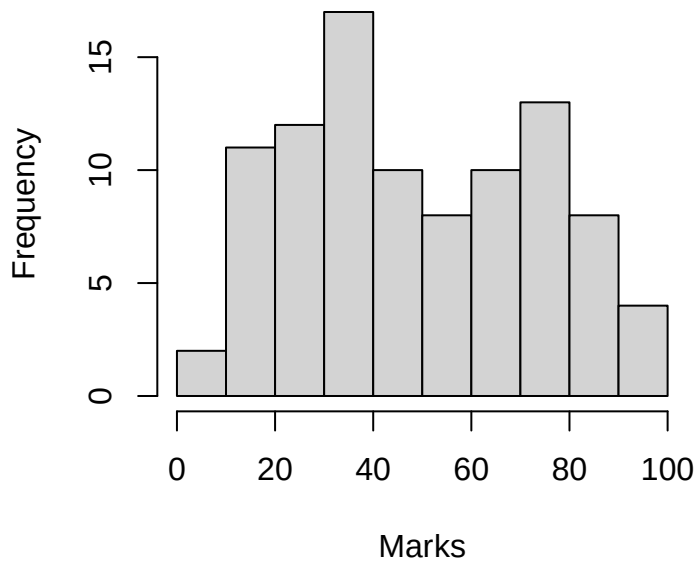

Below is the summary of marks on the exam, along with the histogram of the marks.

```
summary(complete$total)
```

Min.	1st Qu.	Median	Mean	3rd Qu.	Max.
0.00	28.50	47.00	49.01	71.50	96.00

```
hist(complete$total, main = "Histogram of Exam Marks", xlab = "Marks")
```

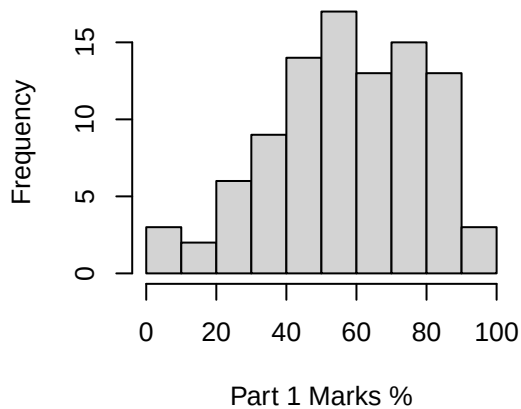

Histogram of Exam Marks

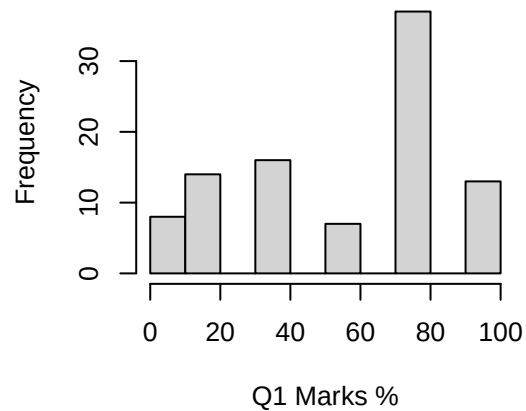

Question-wise

Below is the histogram breakdown for Part 1 and Questions 1-3. Recall, Part 1 was 20 marks, Questions 1-2 were 25, and Question 3 was 30 marks. But here, I normalize all to percentage.

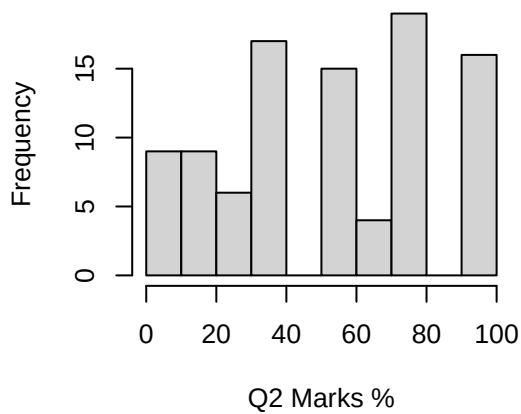

Part 1

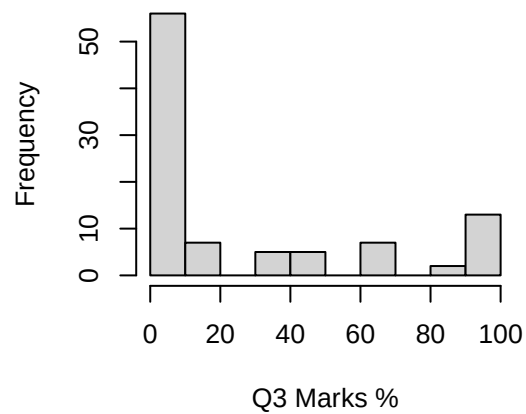

Question 1

Question 2

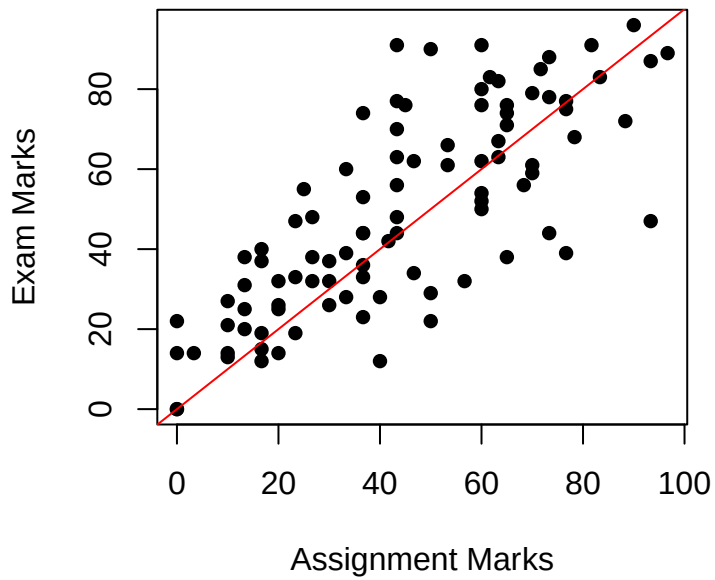

Question 3

Comparison to Assignment Marks

Below is a scatterplot of assignment % marks compared to exam marks. This gives some assessment of whether students prepared well for the exam particularly.

It is nice to see many students above the red line, but ideally, I would like everyone to be above the red line! There are some students that did very well on the assignment, but not so well in the exam. That indicates that maybe consistent practice is missing. There are also many students on the line, for whom I recommend more practice to ensure you always end up above the line!
