

INDIAN INSTITUTE OF TECHNOLOGY KANPUR
DEPARTMENT OF MANAGEMENT SCIENCES (DoMS)
DMS201: INTRODUCTION TO MANAGEMENT

Course number DMS201
Course Title/Name INTRODUCTION TO MANAGEMENT
Course Level: PG (i.e., PhD, MTech, MSc)
Credits: $3*L + 0*T + 0*P + 0*A = 3*03 + 0*00 + 0*00 + 0*00 = 09$

Note

Lecture: 03 (L); Tutorial: 00 (T), Laboratory: 00 (P), Additional
Hours: 00

Per week lecture: 03

Prerequisites N/A

Objective

The objective of the course is to introduce undergraduate students to the basic principles of management. Organizations and businesses fulfil needs for products and services. In order to cater to such needs, while being profitable and sustainable, organizations need to have a good understanding of the market requirements and the business environment. They need to have an efficient way of converting technological, financial, human, and material resources into outputs, so that they have a competitive edge. The aim of this course is to provide students with an overall understanding of different domains within the management discipline and how they work together to achieve organizational objectives.

Key learning take away

- Will help students master the rich repertoire of tools in areas of management.
- Will facilitate students with both the basic and advanced theoretical background in management.
- Will equip learners with the requisite skills in utilizing different techniques through practical applications.

INDIAN INSTITUTE OF TECHNOLOGY KANPUR
DEPARTMENT OF MANAGEMENT SCIENCES (DoMS)
DMS201: INTRODUCTION TO MANAGEMENT

- Will help improve management related decision-making processes.

Syllabus

Module-1: Organisation and Marketing Management

- *Introduction to Organizations*: Basic features of an organization, Organizational purpose and performance, Organizational structures and systems, Organizational activities and processes.
- *Organisational Behaviour (OB) and Human Resource Management (HRM)*: Introduction and evolution of OB/HRM, Leadership and other critical human attributes, Key HR processes, Teamwork and group dynamics, Emerging work arrangements.
- *Marketing Management*: Introduction and evolution of marketing, Strategic marketing and marketing mix, Consumer behaviour and marketing intelligence, Value communication, Marketing in a digital world.

Module-2: Financial Management

- *Business Environment*: Introduction to microeconomics – Demand and supply analysis; Introduction to macroeconomics – GDP, inflation, real vs. nominal variables; Inter-linkage between economic concepts and financial market – Fiscal and monetary policies.
- *Financial Markets and Instruments*: Introduction to financial markets and institutions; Characteristics of equity and debt instruments, Financing an enterprise – Banking and capital markets.
- *Tools of Financial Analysis*: Time value of money; Discounted cash flow approach to valuation of securities; Introduction to financial statement analysis.

Module-3: Operations Management

- *Production Management*: Introduction to production management, Capacity planning and process analysis, Facility location, Aggregate production planning, Materials requirement planning, Sequencing and scheduling.
- *Supply Chain Management*: Production of services, Inventory control for deterministic demand, Stochastic demand and safety stock, Supply chain network design, Logistics management, Coordination.
- *Operations Research*: Operations research modelling, Linear programming and its solution, Modelling with integer variables.

Plan of classes (considering 05 weeks for each Module, each week has 03 classes)

INDIAN INSTITUTE OF TECHNOLOGY KANPUR
DEPARTMENT OF MANAGEMENT SCIENCES (DoMS)
DMS201: INTRODUCTION TO MANAGEMENT

Module-1: Organisation and Marketing Management		
S No.	Coverage of Topics	Week(s)
01	Basic features of an organization, Organizational purpose and performance, Organizational structures and systems.	01
02	Organizational activities and processes, introduction and evolution of OB/HRM, Leadership and other critical human attributes.	02
03	Key HR processes, Teamwork and group dynamics, Emerging work arrangements, Introduction and evolution of marketing.	03
04	Strategic marketing and marketing mix, Consumer behaviour and marketing intelligence.	04
05	Value communication, Marketing in a digital world.	05
Module-2: Financial Management		
S No.	Coverage of Topics	Week(s)
06	Firm value, goals of an organization corporate governance, investment and financing decisions, agency problem and corporate governance, opportunity cost of capital	06
07	Time value of Money, cash flow discounting, present values and future values, annuities and perpetuities	07
08	Valuation of fixed income securities, term structure of interest rates, duration and other properties of fixed income instruments	08
19	Valuation of common stocks, cost of equity capital, dividend discount model, business valuation with cash flow discounting	09
10	Project evaluation criteria, NPV, IRR, and other approaches. Comparison of NPV, IRR. Pitfalls of IRR.	10
Module-3: Operations Management		
S No.	Coverage of Topics	Week(s)
11	Introduction to production management, Capacity planning and process analysis, Facility location, Aggregate production planning, Materials requirement planning, Sequencing and scheduling	11
12	Production of services, Inventory control for deterministic demand,	12

INDIAN INSTITUTE OF TECHNOLOGY KANPUR

Evaluation Methodology

S No.	Evaluation Methods	Evaluation Criteria
01	Quizzes	45%
02	End Semester examination	55%
Total		100%

- Module-1: Dr. Giridhar V. (giridhar@iitk.ac.in)
- Module-2: Dr. Abhinava Tripathi (abhinavat@iitk.ac.in)
- Module-3: Dr. Raghu Nandan Sengupta (raghus@iitk.ac.in)

NOTE:

- **Quizzes/End Semester Examination:** Each module will have its own quizzes. Details will be announced at the beginning of each module by the concerned instructor. **There will be no make-up quiz.**
- **Attendance Policy:** It is expected that the students will attend the classes regularly. **However, evaluation and grading are not linked with attendance.**
- **Grading Policy:** A combination of absolute and relative grading policies will be adopted. Marks obtained in each module will be divided by the highest marks scored in that module before arriving at the total marks. This shall take care of the differences between the modules. Then the interval [0,100] will be split into sub-intervals corresponding to A*, A, B+, ..., F grades.
